

# \$ Lunch Swipe Cards \$

We will continue to offer a prepay system, using EHS student ID numbers and cards, as an alternate method of payment for student lunch purchases. In order for your student to use this cashless system, you will need to set up and fund your child's account.

**\*\* We highly recommend that your student use this cashless system, especially while the commons is under construction and lunch will be served in an alternate location. We will have only one cash line available which may create longer checkout times.**

## **For Freshmen and/or Transfer Students**

### **How do I set up my account?**

Using your EHS student ID number, go to the [MySchoolBucks](#) website. This website will walk you through the process. You should plan on approximately ten minutes to complete this initial set up.

## **For Current and/or Returning Students**

All lunch accounts that have been set up in the 2021-2022 school year are current and active. Your balance (if one remained at the completion of last school year) has been carried over and can be viewed upon logging into your account.

### **What is the cost?**

Your cost is a flat \$2.75 each time you load your account using a charge card, electronic check, or ACH.

### **What happens if I lose my ID?**

Have your student see Student Services, they can issue a new ID, however, there is a \$5.00 replacement fee.

***\*\*Note: Students must have their ID's every time -- Providing your student # is not good enough!!\*\****

### **Benefits of using the Swipe Card system include:**

- Faster Cafeteria lines
- Allows parents to set daily spending limits
- Allows parents to get online reports including how funds are spent
- Convenient payment options for parents

### **Questions about your account?**
